Bomb Suit for Airport Security

Mysuru, Jan. 17 (RK&BCT)- The Mysore Airport at Mandakalli has got an advanced Bomb Disposal Unit through which hazardous explosive devices are diffused and rendered safe. The unit will adopt advanced bomb disposal techniques, including remote methods for handling and diffusing explosives.

As part of the unit, a Bomb Suit or Explosive Ordnance Disposal (EOD) suit or a Blast Suit has been procured with an estimated cost of Rs. 25 lakh and the speciality of this suite is that even if a bomb explodes near the person wearing this suit, the explosion will have no effect on him.

The suit or the body armour has been designed to withstand the pressure generated by a bomb and any fragments the bomb may produce. It will be worn by a trained personnel attempting bomb disposal.

Renowned musicologist
Dr. R. Sathyanarayana no more

Dr. R. Sathyanarayana

Mysuru, Jan. 17- Eminent Musicologist 'Mahamahopadhyaya' Dr. R. Sathyanarayana passed away in city last night. He was 93 and the end came at 9.45 pm at his residence near Sankethi Hostel at Jayanagar in city.

Dr. Sathyanarayana leaves behind son R.S. Nandakumar, daughter Rohini Subbarathnam, daughter-in-law Dr. Radhika Nandakumar, grandchildren and a host of relatives and friends. He also leaves behind thousands of disciples and lakhs of listeners.

The last rites will be performed today at 4 pm at Kengal village on Bengaluru Road at 'Sadhana Dhama.' It is behind Kanva Reservoir, said family members.

'Mahamahopadhyaya' Dr. Sathyanarayana, an internationally reputed musicologist and danceologist, belongs to the lineage of Saint composer Sadhguru Thyagaraja. He is a native of Ramanagara and was born on May 9, 1927.

A Ph.D in Chemistry, this teacher, researcher, administrator, orator, writer and mentor has been highly decorated for his exploits spread over many decades. He has published many research papers, books translations etc. His total publications exceed some 20,000 printed pages. Recognising his contribution to the field of music and dance, Dr. Sathyanarayana was conferred the *Padma Shri* in 2018 by the Centre.

Zoo subway works begin
Traffic banned on Zoo road
Works to be completed by March

Mysuru, Jan. 17 (MTY&KS)- The construction work of a subway to enable visitors and tourists to cross the Shalivahana Road (road in front of the Zoo) from the parking lot began this morning.

The road usually witnesses heavy traffic throughout the day and the subway will ease the rush.

The subway will connect the Zoo from the parking lot and vice-versa. Following the construction of the subway, movement of vehicles has been banned on the Zoo road and alternative roads have been provided by the Police.

The tender for the construction of the subway at a cost of Rs. 1.75 crore has been awarded to Vinyas Builders of Bengaluru, who has sought six months time to complete the subway construction.

Delay in works: The subway works was scheduled to commence from Jan. 2 and the Police had given a deadline for the completion of the construction by Feb. 15.

But as there was influx of tourists to city, the work was postponed for 15 days and as the works began today (Jan. 17), it is scheduled to be completed by March 2. The digging of trench between the parking lot and the Zoo will take about two to three days, sources said.

Insight into *insects*

Likening the profile of an individual to that of an animal in a derogatory sense, choosing the species such as monkey, donkey, rat, owl, vulture and cobra to name the few common candidates can be hurtful and tough to bear. Choosing insects such as mosquito and bedbug, to forcefully remind a person how insignificant one can be, is more hurtful. However, the animals as well as the insects have their own sway as legitimate inhabitants of the Earth, as much as, if not, more than the human beings. While the speechless species including birds that fly and animals on ground that have inhabited the planet much longer than humans, their sworn rivals in depending on nature's gifted resources, have virtually lost-their case at the hands of humans, insects seem to be still holding out in the battle against human beings, armed with lethal means of ending the highly *productive (reproductive)* insects, whose numbers, according to entomologists, is millions in their kinds, the indestructible cockroach taking the top spot in the matter of survival. The benefits bestowed by the two insect species, namely butterfly and earthworm, one without which flowers would not turn to fruits and the other without which soil would not get enriched, are not recognised or valued by lay people.

Biologists have described the features of insects that may impress many and instil awe in many others. According to entomologists, insects have a chitinous exoskeleton, a three-part-body (head, throat and abdomen), three pairs of jointed legs, compound eyes and one pair of antennae. What is more awesome about insects is that they represent more than half of *all* known living organisms. They can walk, fly and even swim, thus confronting the humans on all flanks, apart from the fact that the total number of the extant species estimated at between 6 and 10 million, capable of surviving in all environments. They don't seem to be much concerned about human beings looking at them as pests.

Rodents devouring crops and stored gains are visible and can be dealt with by physical means, but the case of insects, which seem to be active 24x7 is different. Locusts (grass-hoppers), which are hardly noticed by urbanites, are known to *invade* fields, hopping overnight in numbers outrivalling the biggest army leaving the plants bankrupt with no sap or grain on them, even leaves. While the study of fossilised insects, called Palaeontology, may fascinate Biologists, what should people be made aware of is the many harms that the existing species of insects, particularly cockroach, housefly and mosquito, cause in spreading diseases. Although reining in the insects that co-habit human beings in their homes does not need Herculean work, people seem to neglect the risk to their life and take it easy.

In the backdrop of the foregoing preamble on insects, the seven-day exhibition of insects organised at a Kalyan Mantap in Hassan for the second time by Nature Club of Mudigere and Geleyara Balaga displaying hundreds of insect varieties merits to be emulated all over the country, as more than 50,000 students visited the venue. Making the planet free from insects is utopia but their proliferation can be regulated by first getting an insight into their life.

EDITOR'S BOTTOMLINE

What I like about history is that if the event is sufficiently far back in time and we no longer remember how it happened or who did it, we can spin any story and present it as fact and most people will not be any the wiser. However, if you do it too publicly or loudly there's still a danger you could get found out. Did that happen to the Prime Minister and Home Minister on Oct.31 when they extolled their de-operationalisation of Article 370? Speaking in Delhi, Amit Shah said "the unfulfilled dream of Patel was realised when 370 was repealed." Narendra Modi was even more explicit. He said Patel had inspired him to take the decision to dilute Article 370 and added, "I dedicate the decision to Sardar Sahab." *— Karan Thapar in The Hindu*

Man claiming to be possessed, drives through Church doors

Sonseca: A 35-year old Spanish man was recently arrested after driving his SUV through the wooden doors of a Church so he could gain access inside, claiming it was the only place where he could take shelter from his demonic "possession".

On January 8th,the unnamed man reportedly drove up to the large doors of the San Juan Evangelista church, in the Spanish town of Sonseca, and started ramming his Jeep into it.

He then drove though the rows of wooden benches and stopped right in front of the altar. When emergency services finally arrived on the scene, they found the anxious man next to the altar. He allegedly told them that he was possessed and that was the only place he felt safe. It's not currently clear what caused his bizarre behaviour, but according to several news reports, the unnamed man owns a shop that specialises in cannabis-related products, just 900 meters from the Church.

Festival of exploding hammers

San Juan de la Vega: Every February, on the day before Lent, the small Mexican town of San Juan de la Vega honors its namesake saint with a loud tradition known as the Festival of Exploding Hammers.

According to one local story, Juan de la Vega, a wealthy miner and rancher, was aided by San Juan Bautista (Saint John the Baptist) to recover gold stolen by bandits and residents came up with the exploding hammers to loudly commemorate their victory over the outlaws. Another story claims that "San Juanito," the patron saint of the town, was an outlaw, who stole from the rich and gave to the poor, and the celebration is a reenactment of the fight between San Juanito and the local dons. Whatever the origin may be, the tradition is so popular in that locals will risk life and limb to keep it going.

HEALTH CAPSULE by Bron Smith

Is there a downside to the Vegan diet?

The downside to the Vegan diet is the fact that you can eat nothing but junk food and still be a strict Vegan. As long as you don't eat anything that once had a face, you're eating Vegan. The Vegan diet is not defined as being healthy; it's defined by including no animal products.

Really...?

- ***The game of Snakes & Ladders was created by the 13th century poet saint Gyandev. It was originally called 'Mokshapat'. The ladders in the game represented virtues and the snakes indicated vices. The game was played with cowrie shells and dices. In time, the game underwent several modifications, but its meaning remained the same, that is, good deeds take people to heaven and evil to a cycle of re-births.***

LAUGHTER THE BEST MEDICINE

A man was shocked to see his beautiful, divorced neighbour knocking on his door one Friday evening. She said: "I'm feeling so lonely that I can't stand it. I want to go out, get drunk and enjoy my life. Are you free tonight?" "Yes!" he replied, enthusiastically. She said: "Wonderful. Then please take care of my kids!!"

VOICE OF THE READER

Do we require massive statues?

Sir,

The construction and erection of massive statues of great personalities is a meaningless exercise. Such huge amount of tax-payers' money could be used for other constructive purposes such as providing good roads and various other hygienic measures for the safety and well-being of the citizens.

The Central and State Governments' plan in this direction is intended for building vote-banks.

Do we not have the idols of so many Gods and Goddesses for our worship and those are not massive and stand sky high!

May God bless our politicians and rulers with better wisdom in this regard.

Seven arrested for assault, kidnap and extortion

Mysuru, Jan. 17 (KS) - Krishnaraja (KR) Police have arrested seven persons on charges of assaulting a youth for petty reason besides kidnapping the youth, extorting money and taking away the youth's two-wheeler.

The arrested are 27-year-old Nithin and 22-year-old Jayanth of Krishnamurthypuram, 25-year-old Akarsh of Ittigegud, 20-year-old K.V. Manjunath and Chandru of Saraswathipuram, 23-year-old B.R. Bharath of Somwarpet in Kodagu and 20-year-old S. Chethan of Alidhiddi in Nanjangud taluk.

Details: On Jan.14 at about 11.30 pm, one Anil, a resident of K.R. Mohalla was standing along with his friends in front of Pastry World near Trilok Bar. At that time Nithin came to the spot and asked Anil for a match box to which he replied in the negative. Soon, Nithin picked up a fight and assaulted Anil and his friends.

Later, Anil dropped his friends to their houses in his two-wheeler and was returning home, when Nithin and his friends, who were following Anil in their car, rammed the car into the two-wheeler Anil was riding and made him fall down.

Later, Nithin and his friends dragged Anil into the car, where they threatened him (Anil) with a knife and snatched away his Rs.21,050 cash. They then took Anil to a room in Saraswathipuram, where they kept him in illegal confinement and demanded Rs.50,000, failing which they threatened of killing him.

On Jan.15, Anil in the pretext of going to the washroom, escaped from the room and reached a hospital, where he got himself treated and later reached K.R. Police Station and lodged a complaint. Based on the complaint, K.R. Police, who registered a case, conducted an operation on Manasara Road in Ittigegud on the same day and arrested the seven accused.

During interrogation, the accused are said to have confessed of committing the crime and based on the information provided by the accused, the Police have recovered Anil's two-wheeler, one Redmi cell phone and Rs. 4,000 cash besides seizing three two-wheelers, one car and five cell phones used for the crime.

One of the accused Akarsh has a rowdy-sheet opened against him at Nazarbad Police Station and has a case registered against him at Lashkar Police Station.

DCPs M. Muthuraj and B.T. Kavitha and K.R. Sub-Division ACP Poornachandra Tejaswi supervised KR Inspector L. Srinivas, ASI D.B. Suresh and staff Anil Shankapal, Muqadar Shariff, Ramesh, Madhu, Shivakumaraswamy and Manikanta Prasad in the nabbing, recovery and seizing operation.

Limitations of materials cause scientific problems: Prof. Joong Hee Lee

Jeonbuk National University Vice-President delivers keynote address at ICMAT-2020

Vice-President of South Korea's Chonbuk National University Prof. Joong Hee Lee seen lighting the lamp to inaugurate the ICMAT-2020, the second 'International Conference on Advanced Materials and Technology in city yesterday as (from left) ICMAT-2020 Organising Secretary Dr. Siddaramaiah, JSS Mahavidyapeetha Executive Secretary Dr. C.G. Betsurmath, JSS Science and Technology University Registrar Dr. K.S. Lokesh and Dr. Sumanda Bandyopadhyay of SABIC Bengaluru, look on. Picture right shows a section of the audience.

Mysuru, Jan. 17 (MTY&BCT)- A three-day ICMAT-2020, the second 'International Conference on Advanced Materials and Technology' was inaugurated at the Seminar Hall of Sri Jayachamarajendra College of Engineering (SJCE) yesterday. The event was jointly organised by SJCE, JSS Science and Technology University and Technical Education Quality Improvement Programme.

The keynote address was delivered by Vice-President of South Korea's Chonbuk National University (Jeonbuk National University) Prof. Joong Hee Lee. Jeonbuk National University was founded in 1947 and is located in Jeonju, Republic of Korea. Jeonbuk National University has been ranked 501-550th in the world by QS Top Universities Ranking in 2016. This year, it has been ranked Top 1 among the National University in Korea in the QS Ranking.

Addressing the gathering, Prof. Joong Hee Lee said that many of the scientific problems humans currently facing are due to the limitations of materials that are available and, as a result, major breakthroughs in materials science are likely to affect the future of technology significantly.

"All engineered products from airplanes to musical instruments, defence, food, sports, alternative energy sources related to ecologically-friendly manufacturing processes, medical devices to artificial tissues, computer chips to data storage devices and the materials are the access for us to probe into them. The global market is projected to reach 10,000 million dollars by 2022," he said.

"The future is bright for Materials Science and Engineering. Working with material is a collaborative and interdisciplinary approach which has spread into all different arenas of the science and technology. Materials science is not only one of the fastest growing and most rapidly evolving scientific disciplines, but also one which stands at the forefront of modern technology, spanning every facet of this era," Prof. Joong Hee Lee said.

Introducing his Jeonbuk National University to the audience, Prof. Joong Hee Lee revealed that the Varsity has grown to 17 colleges and 14 graduate schools. "For approximately 32,000 students, and 2,400 full-time and part-time professors, Jeonbuk National Varsity provides high-quality educational, research and support facilities, cooperating with various institutions worldwide," he added.

Prof. Joong Hee Lee heaped praises on JSS Group of institutions and said, "India has a rich heritage and culture, be it religion, art, intellectual achievements or performing arts. JSS institution is doing a great service to society through education, food and health. This University is doing very good in terms of technical activities."

Outlining the activities of the conference, President of the event and JSS Mahavidyapeetha Executive Secretary Dr. C.G. Betsurmath said that the conference will open new avenues in material science and there will be 27 technical sessions that will involve over 30 participants from 13 nations and overall, more than 280 papers will be presented.

Dr. Sumanda Bandyopadhyay of SABIC Bengaluru, Registrar of JSS Science and Technology University Dr. K.S. Lokesh, ICMAT-2020 Organising Secretary Dr. Siddaramaiah and others were present on the dais.

Committed to Autonomous Development Council for Kodagu: Dr. Subramanian Swamy

Madikeri, Jan. 17- The Kodavas' long-standing demand for an Autonomous Development Council for Kodagu has got a boost with Rajya Sabha Member Dr. Subramanian Swamy backing the move and time and again reiterating that he will not back out from the issue.

At a felicitation event organised by Codava National Council (CNC), Virat Hindustan Sangham and a group of teachers at the Shikshakara Sadhana in Bengaluru recently, the former Union Minister said that he would take up this matter with the Centre and see this idea of Autonomous Development Council is implemented at the earliest. "The support that I had extended for Telangana will be extended to the Kodavas too. Owing to long struggle, Telangana was separated from Andhra Pradesh. Similar struggle was held in Uttarakhand. Kodagu will get autonomous status in future," he predicted.

"Kodavas are not demanding a separate country like Pakistan. They are demanding Constitutional rights. The demand for separate State or a Union Territory is not wrong," he said.

CNC President N.U. Nachappa said that Dr. Swamy had promised to take up the issue of setting up the Kodava Autonomous Development Council when the CNC held a protest in New Delhi on Nov.26, 2017. "We are grateful to Dr. Subramanian Swamy for taking forward the issue in political circles in New Delhi. He has promised us that he will not back out from the issue," Nachappa added.

Dr. Swamy was conferred the title "Kodava Rathna." Chief Minister B.S. Yediyurappa, who was present, was also felicitated.

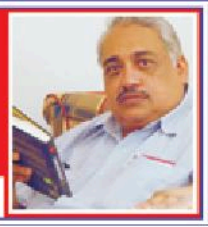
Over a cup of evening Tea



By Dr. K. Javeed Nayeem, MD

No, these tablets are NOT fakes !

There is a video clip from an under-informed and over-enthusiastic news channel that is doing the rounds these days in YouTube and social media platforms that is screaming itself hoarse that India has been flooded with a new kind of fake plastic tablets that can ruin the health of patients who take them. **Yes, most news channels these days are just that — under-informed and over-enthusiastic. And, that is why we find their reporters trying to make a point by shouting and screaming at the top of their voices instead of just narrating their news in a composed and dignified way. What cannot be supported by quiet facts can certainly be supported by high decibel sound!**

Now, the story that is doing the rounds, supported by very impressive video evidence is that someone somewhere is manufacturing plastic imitations of many commonly used tablets which patients take for their ailments like high blood pressure and diabetes and are dumping them on an unsuspecting public. The videos very graphically show such tablets being left immersed in water for hours on end and yet remaining entire and un-dissolved. The question they ask after showing this behaviour is how such tablets which never dissolve can do the good that they are supposed to do to patients who take them?

Many people, including the most highly educated ones, tend to believe such stories because counterfeiting is so common these days and there is almost nothing that is not being faked now. I am told that there is a new kind of artificially produced plastic rice and artificially made eggs too that are crossing over into our country from China. Whether they are capable of producing chickens is still a matter of speculation.

These news reports about fake plastic tablets which were first shown to me by my patients on their smart phones and which you can easily access on the net go on to say that because of this racket we are likely to very soon start seeing the deleterious if not lethal effects of these fake drugs on our population. **But as a practising doctor I can tell you that nothing can be farther from the truth than this amusing tale.** The producers of this kind of news are way behind in the dark ages still. They simply do not know that tablet making technology has grown by leaps and bounds over the past few years and now we have what are called **'controlled release drug delivery'** systems.

In simple terms this means that we now have tablets that release their active ingredients into our digestive tracts very slowly at a predetermined rate instead of at once upon dissolution. In the treatment of diseases like high blood pressure and diabetes this slow release helps to maintain therapeutic level of the drugs in the blood stream over a prolonged period of time thus prolonging their beneficial effects and preventing the adverse effects of over-dosage due to their sudden release. This slowing down of the release of the drug from its vehicle, the tablet or the capsule, is done in many different ways.

This technology can vary from something as simple as coating the drug particles with a slow dissolving substance to drilling a microscopic hole in the tablet with a laser beam through which the drug can slowly trickle out over a period of time. In between these two lies the technique of embedding the active drug in a matrix of a non-dissolving, absorbent, sponge-like material that is technically called a **gel matrix**. When such a tablet is swallowed it releases the active ingredient in our digestive tract very slowly without itself dissolving visibly. At the end of its role it simply passes out of the system through the stools that we excrete, looking almost intact. This intact looking tablet is very aptly called a **'ghost tablet'** and people can mistake it for a tablet that has failed to dissolve and has therefore failed to do any good to them!

Many patients who do not know about this new technology and who notice such ghost tablets in their stools rush back to their doctors in panic with the complaint that the tablets that they have prescribed are of such poor quality that they do not dissolve at all! That is why I have started informing all my patients for whom I prescribe such sustained release tablets what to expect if they happen to peep into their poop. **The interesting result of my advice is that some of them have now become so besotted by this new exercise that they are never satisfied till they have spotted a ghost tablet in their stools!**

So long after the evacuation exercise is over they continue to spend much time behind closed doors peering into their toilet bowls from all angles. From being plane-spotters, bird-watchers and star-gazers, many people have thus become stool-gazers now!

Now, when I am talking of 'peeping into your poop' before flushing it off with closed eyes and a pinched nose, let me tell you that this is actually a very good habit worth cultivating. Yes, it is worth doing with regularity and if you do it right it can perhaps save you much pain and trouble. Your stools are in fact like an open book and your doctor can educate you more about how to 'read' them like one. That is why these days it is quite common to see graphic charts displayed in most gastroenterologists' waiting rooms that show different kinds of stools and tell you what they mean. **Your stools may seem like simple waste that does not deserve a second glance or a second sniff but they can be worth their weight in gold because their appearance can foretell many forthcoming events like cancers of the digestive tract before they become incurable. Believe me when I say that when it comes to predicting your future your stools are certainly more reliable than the lines on your palm or the position of the stars in your horoscope!**

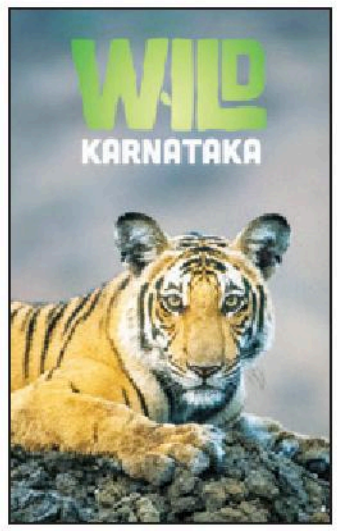
Wild Karnataka hits big screen today



Mysuru, Jan. 17- Much to the delight of wildlife enthusiasts, *Wild Karnataka*, a documentary about rich bio-diversity of Karnataka, is being screened in PVR theatre in city.

Filmed for over four years and narrated by none other than the celebrated natural historian David Attenborough, the 53-minute documentary showcases astonishingly beautiful rich wildlife of Karnataka.

The documentary is touted as the first Indian wildlife documentary to be released in the cinemas. Making effective use of drones and other advanced equipment, the film, shot in crisp blue-chip 4K and directed and produced by award-winning film makers Amoghavarsha and Kalyan Varma, has hit the big screens around the country today (Jan. 17).

Wildlife buffs can watch the documentary in PVR theatre: Garuda Mall in city (8.10 pm).

Zoo subway works begin

(Continued from page 1)

Dimension of the subway: The subway will be 24 meters in length, 4.9 mts wide and 10 ft. tall. A total of 13 ft. deep trench is being dug up.

Meanwhile, the exit gate of the Zoo is closed and a temporary exit gate has been opened near the Giraffe enclosure. Similarly, a temporary gate for the parking lot is also opened to enable tourist vehicles to enter and exit the parking lot.

Mysuru Zoo Executive Director Ajit M. Kulkarni, speaking to *Star of Mysore* said that Vinyas Builders have asked for six months time to complete the subway construction, but the Builder has been asked to complete the works at the earliest to prevent traffic issues.

He further said that Zoo Assistant Engineer Aravind has been deployed at the construction spot to check the quality of works. The company that has been awarded the construction tender would be held responsible for any sub-standard works, he added.

The Zoo Executive Director said that adequate lightings would be installed inside the subway and precautions will be taken to prevent flooding of the subway during rains.

Painting on the subway walls with 'Wildlife Conservation' as the theme would be taken up once the construction is completed, he added.

Once the subway is constructed, the frequent traffic jams amidst movement of pedestrians and tourists in front of the Zoo will be a thing of the past as pedestrians and tourists will have to take the subway to reach the Zoo.

Six arrested for plotting to kill RSS activists

Bengaluru, Jan.17- In a major breakthrough, the Kalasipalya Police have arrested six Social Democratic Party of India (SDPI) activists for plotting to kill RSS members. The arrested persons had attacked Varun Bhopala - 34, a resident of Sarakki in J.P. Nagar, while he was on his way to his father's shop near JC Road after attending a pro-CAA event organised by the RSS and other pro-Hindu organisations. The attack happened on Dec. 22, 2019.

Police Commissioner Bhaskar Rao said the arrested are 33-year-old Irfan alias Mohammed Irfan, 46-year-old Syed Akbar alias Mechanic Akbar, 30-year-old Syed Siddiq Akbar, 27-year-old Akbar Basha, 28-year-old Sanaulla Sharif and 39-year-old Sadiq UL Ameen, all residents of K.G. Halli.

The rally was addressed by Bengaluru South BJP MP Tejasvi Surya and Yuva Brigade founder and BJP supporter Chakravarthy Sulibele. But the Police Commissioner did not explicitly name the duo as targets and only said they had come to target "Hindu leaders at the venue".

Rao said that the arrested wanted to attack and kill the leaders who took part in the pro-CAA event. "They initially pelted seven stones to scatter the crowd so that they can attack the leaders, but they failed. Later, they saw Varun walking out of the crowd wearing a saffron shirt. So the arrested followed him and attacked him with lethal weapons. Assuming he is dead, the gang fled on their bikes towards Bidadi. The SDPI activists were funded to create a disturbance and kill Hindu organisation leaders," Rao said.

The suit protects all parts of the body since the dangers posed by a bomb's explosion affect the entire body. Such suits provide tremendous degree of protection from fragmentation, blast overpressure, thermal and tertiary effects should the bomb detonates.

The Bomb Suite was worn and demonstrated to media this morning on the occasion of the inauguration of a new daily flight to Belagavi from Mysore. With the Belagavi flight, the Mysore Airport handles eight flights every day from 7 am to 9.30 pm. With increased flights, the need to enhance security was also felt and the Bomb Disposal Unit has begun functioning in the Airport.

Airport Director R. Manjunath told *Star of Mysore* that they are in talks with the State Internal Security Division asking them to provide 24/7 security to the Airport by Karnataka State Industrial Security Force (KSISF). Over 50 KSISF personnel will provide round-the-clock security soon.

8 flights from Mysuru

The new daily flight to Belagavi was inaugurated this morning and the plane is operated by TruJet. It will be a flight between Chennai-Mysuru and Belagavi. With the new flight, the Mysore Airport is presently handling eight flights and 16 routes including Hyderabad, Bengaluru, Kalaburagi, Goa and Chennai. The Kochi flight has been grounded as works on upgrading the Cochin International Airport is on and will be completed by March this year when the flight services will resume. Then, the total flights operated from Mysuru will touch nine.

Today's Belagavi flight was inaugurated by Arpita Pratap Simha, wife of Mysuru-Kodagu MP Pratap Simha. CII Chairman Bhaskar Kalale, Airport Director R. Manjunath, B.S. Prashanth of Safe Wheels, BJP Leaders H.V. Rajeev and Dr. Anil Thomas, C.A. Jayakumar of Mysore Travel Association, Travel Next's K.K. Mohan and others were present.

Airport Director Manjunath said that talks are on with several airlines including TruJet, Indigo and Air Alliance inviting them to operate flights to Mangaluru, Chennai via Coimbatore and also between Mysuru and Tirupati. A daily flight to Shirdi is facing some problems in weather, he added.

He said that all the flights operating from Mysuru had 85 percent occupancy. "We are planning to introduce a Flybus to Ooty and Kodagu and we are in talks with the KSRTC to operate the bus service from the Airport. Also, the city to Airport service is doing well," he added.

The bus starts from City Bus Stand and reaches the Airport via Sub-urban Bus Stand, Fortune JP Palace, Ginger Hotel, Radisson Blu Plaza and Sri Ganapathy Sachchidananda Ashrama.

Fares range from Rs. 20 to Rs. 100 at various stages. Fares are inclusive of 5 percent GST.

Dhanurvainika Brahma Award
to Vid. H.K. Narasimha Murthy

Mysuru, Jan. 17- In memory of the Legendary Violin Maestro Piteelu Chowdaiah on his 52nd death anniversary, Nadabrahma Sangeetha Sabha and Piteelu Chowdaiah Samsmarana Vedike has organised a function to honour Vid. H.K. Narasimha Murthy with the title *Dhanurvainika Brahma* along with a cash prize on Sunday (Jan. 19) at 5.30 pm at the Sabha premises on JLB Road in city.

Vid. Narasimha Murthy along with Sindhu Suchetan and Pruthvi Bhaskar will present a Violin Trio on the occasion. G.S. Ramanujan and Sharath Kaushik will accompany them on mridanga and ghata respectively.

H.K. Narasimha Murthy is a senior and leading violinist hailing from Mysuru. Regarded both as an extremely able performer and as a highly accomplished teacher, Narasimha Murthy's acumen was shaped by his training in the revered Parur school of violin under Parur Sundaram Iyer and later from his illustrious sons M.S. Anantharaman and the legendary M.S. Gopalakrishnan.

Piteelu Chowdaiah

Vid. Narasimha Murthy

He has served as Staff Artiste at AIR, Mysore for nearly four decades, earning its 'A-Top' grade. He has enriched music concerts with his violin accompaniment. His playing technique is marked by great dexterity and unfailing support to the main musician. He is a veritable bridge between the past and present generations of musicians having accompanied a long list of unforgettable stalwarts of yesteryear, including Maharajapuram Viswanatha Iyer, Chembai Vaidyanatha Bhagavathar, Semmangudi Srinivasa Iyer, D.K.Pattamal, D.K. Jayaraman, Dr. M. Balamuralikrishna, K.J.Yesudas, T.V. Shankaranarayan and the Bombay Sisters, with whom he travelled across the globe.

The lofty credentials of 'HKN Sir', as he is popularly and respectfully known, continue to serve posterity, especially the Parur style of violin, through his dedicated teaching. He is one of those rare combinations of a very distinguished performer and an exceptional Guru. He has trained a large number of very competent violinists like H.N. Bhaskar, Mysore Srikanth and H.M. Smitha who have already established their names in the present competitive world of music.

Malladi Brothers to perform at RAAGA tomorrow

Raaga's first event of the decade, the annual "Lalitha V. Murthy Memorial Concert" features the Malladi Brothers for a scintillating Karnatak vocal duet on Saturday, the 18th at Nadabrahma Sangeetha Sabha, JLB Road at 6 pm. This is a tribute to the memory of the late wife of *Kalaseva Rathna* K.V. Murthy, who, along with her husband, had been benevolent hosts to many artistes of repute.

Vid. Malladi Sreeramprasad and Vid. Malladi Ravikumar, popularly known as the "Malladi Brothers" hail from a family of musicians. They were initiated into music by their grandfather, a great harikatha exponent, late Malladi Ramamurthy and their father Malladi Suri Babu, a senior Vidwan himself. They were later under the tutelage of "Sangeetha Kalanidhi" Nedunuri Krishna Murthy and *Padma Bhushan* Dr. Sripada Pinakapani.

The prestigious awards from All India Radio, Sri Krishna Gana Sabha, The Music Academy (Chennai) etc., speaks volumes about their prowess and the duo have performed all over the world, enthralling the audience everywhere.

On Saturday, they are accompanied by Vid. Dr. Nishanth Chandran on the violin, Vid. Tumakuru B. Ravishankar on the mridanga and Vid. Sunaad Anoor on the khanjira.

A talk on Healthy Living through Ayurveda and Yoga, from 5 pm to 6 pm by Dr. N.V. Krishnamurthy, Director, Prajna Kuteera Ayurveda Centre, precedes the concert.

This programme is sponsored by art patron K.V. Murthy. For details contact Mob: 82777-33410 or Ph: 0821-2542069.

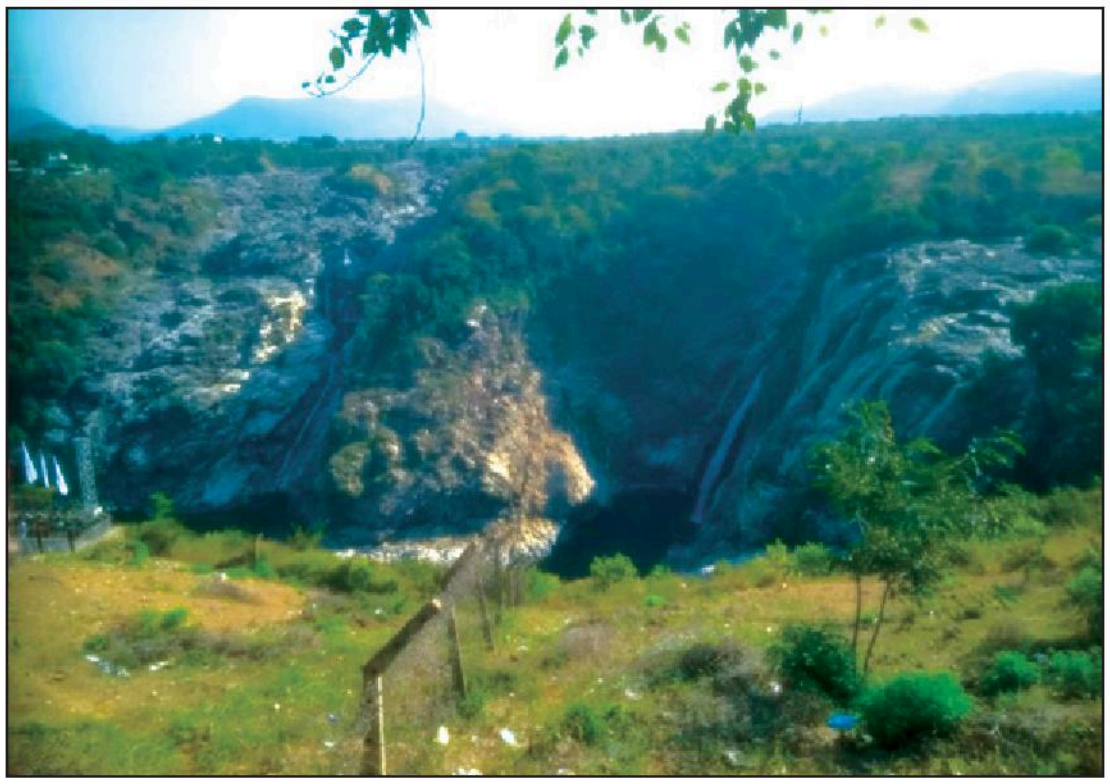
Dry Gaganachukki to come alive at Jalapathotsava tomorrow

- **Will KRS water be used for a milky-white water show?**
- **Officials say only 'seepage water' will be used**
- **Farmers allege more than 6 TMCft water to go waste**

Mandya/ Malavalli, Jan. 17 (Nagaiah&BCT)- A *Jalapathotsava* (waterfall festival) is normally held when a waterfall is full to the brim and in full glory. But what about a *Jalapathotsava* when a waterfall is bone dry? Yes, a two-day *Jalapathotsava* at Gaganachukki Waterfall in Malavalli Taluk of Mandya District will be inaugurated tomorrow at a time when the waterfall is fully dry.

Worse, the neighbouring Bharachukki Waterfall in Chamarajanagar District too is dry and the Mandya District Administration, State Tourism Department have planned to use water from the Krishna Raja Sagar (KRS) Reservoir though officials are not admitting it openly. They have said that only "seepage water from the KRS used to generate electricity will be used to fill the waterfalls with milky white water," raising eyebrows.

The farmers of Mandya have not taken the issue lightly and have accused the State Government of neglecting their legitimate demand for water and clandestinely releasing Cauvery water to Tamil Nadu in the guise of *Jalapathotsava*. They alleged that at a time when summer is fast approaching with KRS water level standing at 120 feet and when the farmers need water for summer crops, the State Government is spending money and wasting water.



A dry Gaganachukki waterfall at Malavalli taluk which will come alive at Jalapathotsava tomorrow. Picture below shows the preparations underway for the Jalapathotsava.

Rs. 1 crore budget

The Gaganachukki *Jalapathotsava* will begin tomorrow evening at Shivanasamudra and Mandya District Minister R. Ashoka will inaugurate the extravaganza along with Tourism Minister C.T. Ravi. In all, Rs. 1 crore will be spent and a helicopter ride has been organised to view the *Jalapathotsava* where each person has to pay Rs. 2,500 for a chopper ride.

Speaking to reporters, after a preliminary meeting with the officials on Thursday, Malavalli MLA K. Annadani appealed to the people to attend the festival in large numbers and make it a grand success. Annadani explained that *Jalapathotsava* was held for the first time in 2006. "As it could not be held for the last four years it has been decided to hold the festival now. As by-election was announced, the programme had to be postponed. Now, it has been decided to hold the festival on Jan. 18 and 19," he said.

Cultural extravaganza

Kannada film director T.S. Nagabharana will flag off the procession on Jan. 18. Artistes from across the State will present a variety of programmes. Cultural programmes will be held from the morning on Jan. 19. Film actors will attend the programmes. Housing Minister V. Somanna and other dignitaries will attend the valedictory programme scheduled to be held in the evening. As part of the festival, 'Ahara Mela' and a 'Job Mela' will be organised on both days. Boating will be held in Malavalli Lake. A rangoli competition and exhibitions will also be held to attract visitors.

Farmers oppose move

Farmers of Mandya and Malavalli have opposed the *Jalapathotsava* claiming that it is unnecessary and waste of water which can be used for the summer crop in the near future. Farmers have questioned the need for holding the festival when the Government is yet to clear the sugarcane dues to the growers.

"We have been asking for water for our summer crops and no decision has been taken in this regard. Also, how can the government use KRS water to waste? The claim by the authorities that they will use seepage water for the *Jalapathotsava* is a joke. They are actually planning to use at least three to four TMCft of water from KRS and indirectly they are releasing it to Tamil Nadu," farmers said.

For the water to reach Gaganachukki it has to be in full force and the existing falls is completely dry. Seepage water will not be of that force. "The officials are taking this as a prestige issue and are lying to farmers. Actually more than five TMCft of water is required for the two-day Jalapathotsava but the actual facts are hidden from us," farmers said.

Farmers alleged that are affected due to the supply of sub-standard paddy seeds and the tail-end villages are not getting water in the canals and paddy procurement centres have not started functioning. "Is it necessary to hold *Jalapathotsava*, spending crores of rupees, neglecting the farmers' needs? It is an attempt to release water to Tamil Nadu," the farmers alleged.

Public event, private bikes!

Meanwhile, as part of the strategy to attract people to the *Jalapathotsava*, over 70 people participated in the 'Bullet Rally' yesterday. MLA K. Annadani, Mandya Deputy Commissioner M.V. Venkatesh, Additional Deputy Commissioner T. Yogesh and others inaugurated the rally by riding bikes.

However, the officials faced criticism as most of the bikes were from motorcycle-renting firms and the fuel expenses were borne by the District Administration. A majority of the rallyists used rental vehicles despite the district having a good number of similar bikes. The main aim of the rally was to promote the bike rental company and the brand instead of *Jalapathotsava*, the public alleged.

Tasleem likely to be Mayor

Mysuru, Jan.17 (RKB&DM)- With the Mayoral polls just a day away (Jan.18), the suspense continues on who the next Mayor of the city will be.

Meanwhile it is said that, with the Mayor post reserved for BC-A (Backward Class) woman, the JD(S) has finalised the name of Ward No.26 (Meena Bazaar) Corporator Tasleem, while the Congress, which is going to get the Deputy Mayor post as per an understanding reached between the coalition partners, has shortlisted the name of Ward No.38 (Giriyabovipalya) Corporator C. Sridhar. The Deputy Mayor post has been reserved for SC candidate.

There are four aspirants in the JD(S)- Tasleem, Ward No.17 Corporator Reshma Banu, Ward No.22 Corporator Namratha Ramesh and Ward No.45 Corporator K. Nirmala. Although the contest had narrowed down between Namratha and Nirmala, in an overnight development, Tasleem has become the front-runner for the post, with the JD(S) rewarding her for her work in the ward and organisation of the party at the grass-root level, it is learnt. As far as the Deputy Mayor's post is concerned, the Congress is said to have decided on C. Sridhar after consultation with former Chief Minister Siddharamaiah and other top party leaders of Mysuru.

Mayoral Polls tomorrow

Tasleem

C.Sridhar

In the meantime, the JD(S) and Congress which are the ruling partners in the MCC, have moved their Corporators to separate resorts, fearing that the BJP would resort to 'Operation Lotus' at the last minute for poaching Corporators of the ruling combine. While the JD(S) moved its Corporators to a resort on KRS Road yesterday itself, the Congress shifted its Corporators to another resort in the outskirts of city this afternoon, according to sources.

The BJP, which is the single largest party in the MCC, has 21 Corporators, followed by Congress-19, JD(S)-18, BSP-1 and independents 5, in the 65 member body, with one seat becoming vacant following the disqualification of BJP Corporator Guru Vinayak of Ward No.18.

D.K. Shivakumar tipped to be next KPCC President

Bengaluru,Jan.17(KMS&DM)- Even as the suspense continues over the appointment of Working Presidents, the Congress High Command is said to have finalised the name of senior party leader and former Minister D.K. Shivakumar (DKS) for KPCC President's post.

Shivakumar

Even before the announcement of his name, Shivakumar is said to have urged the party High Command to give a free hand to him, thus opposing the party's idea of having four Working Presidents along with him, according to sources. With the appointment of DKS almost certain, Opposition leader and former Chief Minister Siddharamaiah is learnt to have pressed the High command for appointment of four Working Presidents, one from each of the four revenue divisions of the State in order to maintain the balance of power within the party, as giving complete authority to Shivakumar may spell doom for him and his supporters. Siddharamaiah has proposed the names of Satish Jarkiholi, a ST community leader from Belagavi region, Zameer Ahmed Khan, a Muslim community leader from Bengaluru region, Eshwar Khandre, a Lingayat leader from Kalaburagi region (Hyderabad-Karnataka region) and R. Dhruvanarayan, a SC community leader from Mysuru region. Having failed to make his protégé M.B. Patil, a lingayat leader from North Karnataka as the KPCC Chief, Siddharamaiah is lobbying hard to appoint four Working Presidents, in a bid to prevent DKS from gaining complete control of the party in the state, sources said.

Hunsur CMC polls, MCC Ward 18 by-poll on Feb.9

Mysuru, Jan.17 (YDS&DM)- The Election Commission on Tuesday announced that the Hunsur CMC polls and the by-poll to MCC Ward 18 will be held on Feb. 9.

The by-poll to MCC Ward 18 (Yadavagiri) has been necessitated following disqualification of BJP Corporator Guru Vinayak over fake caste certificate row.

As per poll schedule, the poll notification will be issued on Jan.21 and the last date for filing of nominations is Jan.28. The scrutiny of papers will take place on Jan.29 and the last date for withdrawal of nominations is Jan.31. The voting will take place from 7 am to 5 pm on Feb.9 and the counting of votes will be taken up on Feb.11.

All the 31 Wards of Hunsur City Municipal Council (CMC) will go the polls on Feb.9. Following the announcement of the poll schedule, the Model Code of Conduct has come into force in the limits of MCC Ward 18 and Hunsur CMC till Feb.11, according to Deputy Commissioner Abhiram G. Sankar, who is also the District Electoral Officer.

Over 21,000 voters register in Special Enrolment Drive

Mysuru, Jan.17 - Over 21,217 voters across the district have applied for enrolment in the *Minchina Nondani* (Special Voter Enrolment Drive) held from Jan.6 to 10.

The enrolment drive was held in Krishnaraja, Chamaraja, Narasimharaja, Chamundeshwari, K.R. Nagar, Periyapatna, Hunsur, H.D. Kote, Varuna, Nanjangud and T. Narasipur Assembly segments of the district.

Out of 21,217 applications received, 13,957 applications were from young voters aged between 18 and 19 years, of which 7,399 are male and 6,557 female voters.

Also, 7,260 applications were received from voters aged over 20 years, of which 3,674 were men and 3,584 were women voters. While Hunsur Assembly segment recorded the highest enrolment of 3,105 voters, Krishnaraja recorded the lowest with just 993 voters.

Although the voter registration concluded on Jan.10, the enrolment drive is a continuous process.

Eligible voters can enrol at their respective Taluk Offices and those living in the city at the MCC Office.

WORD OF THE DAY

Elixir

Pronunciation: ih-LIK-ser.
Meaning: A substance held to be capable of changing base metals into gold; substance held to be capable of prolonging life indefinitely; a medicinal concoction; a sweetened liquid usually containing alcohol that is used in medication either for its medicinal ingredients or as a flavouring.
Origin: Elixir has roots in the practice of alchemy; it was used in the Middle Ages as the word for a substance believed to be capable of changing base metals into gold. Its later use for a drug purported to prolong one's life led to its use in the names of medicines of mostly questionable effectiveness. Today, it is often used generally for anything thought capable of remedying all ills or difficulties, be they physical or otherwise. The word came to us via Middle English and Medieval Latin from Arabic al-iksīr; it probably ultimately derives from Greek xērion, meaning "desiccative powder."
Example: While the new sports complex is hardly an elixir for all of the city's economic woes, it should spur some much-needed job growth.

THE ODD WORD

Eagre

Sudden rise of tide in a river.

PHRASE OF THE DAY

A fool and his money are soon parted

Meaning: Literal meaning.
Origin: This is quite an early proverb in the English language and, as such, might be thought to contain the wisdom of the ancients. The notion was known by the late 16th century, when it was expressed in rhyme by Thomas Tusser in Five Hundreth Pointes of Good Husbandrie, 1573:
A foole & his money,
be soone at debate:
which after with sorow,
repents him to late.
The precise wording of the expression comes just a little later, in Dr. John Bridgesa' Defence of the Government of the Church of England, 1587:
If they pay a penie or two pence more for the reddinesse of them...let them looke to that, a foole and his money is soone parted.

QUOTE BOX

Too many people spend money they earned...to buy things they don't want...to impress people that they don't like. **—Will Rogers**
